PERSONAL PROJECTS

Unit Conversion June 2023
In this we have used HTML, CSS and JavaScript to convert Temperature, Weight and Distance into other units. It's also Responsive for some devices.

ToDo List May 2023
In this project, we can add and delete our daily tasks. It's based on HTML, CSS and JavaScript. The tasks will remain in our local storage even after refreshing the page.

Portfolio July 2023
Created my own responsive Portfolio.
